The Relix is the latest in a long line of race-ready road clincher tires from Maxxis. The Relix uses our lightest and most supple 170 TPI casing (ONE70) along with SilkShield puncture protection, which protects both the sidewalls and the underside of the tread. The Relix is available with either a dual or triple (3C) rubber compound.

				1 2 3 4

Named for the venomous pit viper, the Mamushi is a race clincher with bite! This tire uses our 170 TPI (ONE70) casing to deliver low weight and outstanding ride quality. For excellent grip in all conditions, the Mamushi uses our Triple (3C) Compound rubber. Our SilkShield tread and sidewall puncture protection provide excellent durability for a tire in this weight class. Be prepared to strike with the Mamushi from Maxxis!

				1 2 3 4

The Maxxis Radiale-TL pushes road racing tire technology to new levels. The Radiale-TL combines the excellent ride quality our radial casing tires are known for and adds the benefits of road tubeless compatibility. When used on a road tubeless-compatible wheel, the Radiale-TL offers a supple ride, excellent cornering traction and a reduced chance of flatting. The Radiale-TL has a lightweight 120 TPI casing, dual-compound rubber and Silkworm puncture protection. Choose the Radiale-TL for your next local crit or century ride.

MUD WRESTLER

PART #	SIZE	ETRTO	TPI	BEAD	WEIGHT	COMPOUND	MAX PSI	TECH
TB88992100	700x33C	33-622	60	Foldable	390 g	Dual	75	EXO/TR
TB88992200	700x33C	33-622	120	Foldable (Carbon Fiber)	370 g	Dual	75	EXO/TR

HARD PACK	LOOSE/HARD	MEDIUM	LOOSE	WET	MUD	CORNERING CONTROL	ROLLING EFFICIENCY
						1 2 3 4	1 2 3 4

Our most versatile cyclocross tread pattern is now available with a Tubeless Ready (TR) casing! The Mud Wrestler TR can be used on tubeless-approved wheels with liquid sealants, allowing the rider to run lower air pressures than a tube-type tire for better traction and flat resistance. The Mud Wrestler TR is available in a 700x33c size with our EXO sidewall protection. Choose the 120 TPI casing version for lighter weight and a more supple ride.

- /// **M209RU**
- /// **EXO Puncture Protection**

RACING	SPORT	TRAINING	URBAN COMMUTE	PUNCTURE PROTECTION
				1 2 3 4

The Overdrive II is the next step in the evolution of our popular Overdrive series of commuter/ trekking tires. The smooth center rolls quickly along pavement, and the textured shoulders offer a bit more cornering grip in looser conditions. For added visibility while commuting in the morning fog or late evening, the Overdrive II features a reflective strip integrated into the sidewall. To top it all off, the Overdrive II uses either our MaxxShield or Silkworm puncture protection for the ultimate in flat prevention.

- /// **M2017**

- /// **High-volume, lightweight race tire**
- /// **3C Maxx Speed Triple Compound Technology available**
- /// **Tubeless Ready (TR) available**

CROSSMARK

PART #	SIZE	ETRTO	TPI	BEAD	WEIGHT	COMPOUND	MAX PSI	TECH
TB69613000	26x2.10	52-559	60	Foldable	585 g	Dual	60	TR
TB69613100	26x2.10	52-559	60	Foldable	620 g	Dual	60	EXO/TR
TB96665000	29x2.10	52-622	60	Foldable	645 g	Dual	60	TR
TB96665100	29x2.10	52-622	60	Foldable	685 g	Dual	60	EXO/TR

HARD PACK	LOOSE/HARD	MEDIUM	LOOSE	WET	MUD	CORNERING CONTROL	ROLLING EFFICIENCY
						1 2 3 4	1 2 3 4

The CrossMark is the next step in the evolution of the cross country racing tire. The nearly continuous center ridge flies on hardpack, yet has enough spacing to grab wet roots and rocks. The slightly raised ridge of side knobs offers cornering precision never before seen on a tire this fast.

- /// **M309RU**
- /// **Fast-rolling center ridge**
- /// **Raised side knobs for better cornering**
- /// **Tubeless Ready (TR) available**

MOUNTAIN BEAVER

PART #	SIZE	ETRTO	TPI	BEAD	WEIGHT	COMPOUND	MAX PSI	TECH
TB72564000	26x2.25	57-559	60	Foldable	695 g	Dual	65	EXO
TB96737000	29x2.25	57-622	60	Foldable	765 g	Dual	65	EXO

HARD PACK	LOOSE/HARD	MEDIUM	LOOSE	WET	MUD	CORNERING CONTROL	ROLLING EFFICIENCY
						1 2 3 4	1 2 3 4

The Beaver features a tread design ideal for wet and muddy conditions. The dual-compound tread uses a hard base layer to reduce rolling resistance and provide knob support, while the siped, softer outer layer provides unparalleled grip on wet rocks and roots. The Beaver is one aquatic-friendly animal of a tire!

- /// **M326P**
- /// **Wet and muddy conditions**
- /// **Dual-Compound Technology**

IGNITOR

PART #	SIZE	ETRTO	TPI	BEAD	WEIGHT	COMPOUND	MAX PSI	TECH
TB69306000	26x2.10	47-559	60	Foldable	590 g	Single	60	TR
TB69306100	26x2.10	47-559	60	Foldable	620 g	Single	60	EXO/TR
TB96657000	29x2.10	52-622	60	Foldable	665 g	Single	60	TR
TB96657100	29x2.10	52-622	60	Foldable	705 g	Single	60	EXO/TR

HARD PACK	LOOSE/HARD	MEDIUM	LOOSE	WET	MUD	CORNERING CONTROL	ROLLING EFFICIENCY
						1 2 3 4	1 2 3 4

The Ignitor tread pattern was designed for the most discerning professional racers and has laid claim to multiple World Cup victories. The well-spaced tread pattern fills in nicely to provide low rolling resistance in the straights, while the ramped pentagonal knobs provide excellent traction in corners and on medium soil.

- /// **M304RU**
- /// **Directional ramped pentagonal knob design**
- /// **Excellent multi-condition performance**
- /// **Tubeless Ready (TR) available**

ARDENT

PART #	SIZE	ETRTO	TPI	BEAD	WEIGHT	COMPOUND	MAX PSI	TECH
TB72569000	26x2.25	54/56-559	60	Foldable	695 g	Dual	60	TR
TB72569100	26x2.25	54/56-559	60	Foldable	735 g	Dual	60	EXO/TR
TB85967100	27.5x2.40	61-584	60	Foldable	760 g	Dual	60	EXO/TR
TB96734000	29x2.25	56-622	60	Foldable	755 g	Dual	60	TR
TB96734100	29x2.25	56-622	60	Foldable	800 g	Dual	60	EXO/TR
TB96712300	29x2.25	56-622	60	Foldable	690 g	Single	65	Skinwall
TB96789100	29x2.40	59/61-622	60	Foldable	750 g	Single	65	Skinwall

HARD PACK	LOOSE/HARD	MEDIUM	LOOSE	WET	MUD	CORNERING CONTROL	ROLLING EFFICIENCY
						1 2 3 4	1 2 3 4

An aggressive tread on a high-volume casing, designed with great traction in mind. The Ardent doesn't forget the racer, with large block-style side knobs offering numerous edges for high-speed cornering. The center tread, while ideal for braking and accelerating traction, also features ramped knobs to minimize rolling resistance. With a wide variety of size offerings, the Ardent captures every mountain rider's needs.

- /// **M315**
- /// **High-volume casing**
- /// **Aggressive tread design**
- /// **Excellent performer in wet conditions**
- /// **Tubeless Ready (TR) available**

MINION DHF

PART #	SIZE	ETRTO	TPI	BEAD	WEIGHT	COMPOUND	MAX PSI	TECH
TB73305100	26x2.30	58-559	60	Foldable	845 g	Dual	60	EXO/TR

TB85925100	27.5x2.30	58-584	60	Foldable	825 g	3C Maxx Terra	60	3C/EXO/TR
TB96785000	29x2.30	58-622	60	Foldable	925 g	Dual	60	EXO/TR
TB96785100	29x2.30	58-622	60	Foldable	925 g	3C Maxx Terra	60	3C/EXO/TR

HARD PACK	LOOSE/HARD	MEDIUM	LOOSE	WET	MUD	CORNERING CONTROL	ROLLING EFFICIENCY
						1 2 3 4	1 2 3 4

The Minion DHF is the standard by which all other aggressive mountain tires are measured. The DHF incorporates ramped knobs for low rolling resistance and channel-cut knobs to increase gripping edges, giving straight-line control and precise cornering.

- /// **M301RU**
- /// **Directional, ramped knob design**
- /// **Lightweight, single-ply casing**
- /// **3C Maxx Terra available**
- /// **Tubeless Ready (TR) available**

MOUNTAIN

MINION DHR II

PART #	SIZE	ETRTO	TPI	BEAD	WEIGHT	COMPOUND	MAX PSI	TECH
TB85927000	27.5x2.30	58-584	60	Foldable	805 g	3C Maxx Terra	60	3C/EXO/TR

HARD PACK	LOOSE/HARD	MEDIUM	LOOSE	WET	MUD	CORNERING CONTROL	ROLLING EFFICIENCY
						1 2 3 4	1 2 3 4

Featuring an all-new tread design, the Minion DHR II is the ideal tire for aggressive gravity riding. With side knobs borrowed from the legendary Minion DHF, but widened to provide more support, the DHR II corners like no other. The center tread features ramped knobs to improve acceleration and sipes have been added to create a smooth transition when leaning the bike over. Paddle-like knobs on the center tread dig in under hard braking and help keep the bike in control.

- /// **M327RU**
- /// **Excellent braking and cornering traction**
- /// **3C Maxx Terra available**
- /// **Tubeless Ready (TR) available**

HIGH ROLLER II

PART #	SIZE	ETRTO	TPI	BEAD	WEIGHT	COMPOUND	MAX PSI	TECH
TB85923000	27.5x2.30	58-584	60	Foldable	845	Dual	60	EXO/TR
TB85923100	27.5x2.30	58-584	60	Foldable	875	3C Maxx Terra	60	3C/EXO/TR

HARD PACK	LOOSE/HARD	MEDIUM	LOOSE	WET	MUD	CORNERING CONTROL	ROLLING EFFICIENCY
						1 2 3 4	1 2 3 4

An open and aggressive tread design gives the High Roller II excellent soil penetration and mud-clearing ability. A square profile provides a solid, consistent feel across the knobs. Modified knobs on the shoulder and center improve braking performance and traction on hard surfaces. When gravity pulls you downhill, rely on the High Roller II to keep you upright.

- /// **M325RU**
- /// **Open tread design**
- /// **Improved braking and traction**

HARD PACK	LOOSE/HARD	MEDIUM	LOOSE	WET	MUD	CORNERING CONTROL	ROLLING EFFICIENCY
						1 2 3 4	1 2 3 4

Today's World Cup downhill tracks are steep, technical monsters with ever-changing conditions. Our pros needed a mid-spike tire that could handle dry, loose, blown-out corners as well as a bit of mud. The Shorty is that tire. A high-volume, dual-ply downhill casing makes the Shorty a more versatile option than a dedicated mud spike like our Wet Scream. Large, tall and slightly staggered side knobs penetrate loose soil to provide predictable, stable cornering at warp speeds. The alternating pattern of the center tread features widely-spaced knobs to clear debris, and their square shape offers plenty of braking bite. For downhill mountain biking in gnarly, mixed conditions, the Shorty can't be beat!

URBAN

HOOKWORM

PART #	SIZE	ETRTO	TPI	BEAD	WEIGHT	COMPOUND	MAX PSI	TECH
TB96805000	29x2.50	63-622	60	Wire	1230 g	Single	65	—

DIRT	STREET	PARK	FLAT	VERT
------	--------	------	------	------

The original urban assault tire is now available in a 29" size!. Huge air-volume softens the drops, while the inverted tread design makes rolling resistance minimal. Bead-to-bead tread provides durability and traction whether you're dropping staircases, grinding rails or riding in your local skatepark.

- /// **M121**
- /// **Curved, grooved-slick design**
- /// **Single-ply casing**

- /// **Urban assault**

TORCH

PART #	SIZE	ETRTO	TPI	BEAD	WEIGHT	COMPOUND	MAX PSI	TECH
TB96651200	29x2.10	53-622	120	Foldable	625 g	Single	65	Silkworm

DIRT	STREET	PARK	FLAT	VERT
------	--------	------	------	------

Since its introduction, the Torch has set fire to BMX tracks around the globe. Now available in a 29" size, the Torch is ready to burn up your local streets! The same fast-rolling tread pattern and supple, 120 TPI casing that made the 20" version so popular has made its way to this new 29" size. Choose the Torch for your 29er urban assault bike!

- /// **M149P**

URBAN GRIFTER

PHOTO: GORE

PART #	SIZE	ETRTO	TPI	BEAD	WEIGHT	COMPOUND	MAX PSI	TECH
TB96648000	29x2.00	50-622	60	Wire	740 g	Single	65	—
TB96648100	29x2.00	50-622	60	Foldable	655 g	Single	65	—
TB96802000	29x2.50	64-622	60	Wire	885 g	Single	65	—

DIRT	STREET	PARK	FLAT	VERT

The Grifter is our most popular freestyle, and with good reason. The tread pattern rolls fast to help you keep your momentum and the high-volume casing softens landings. So when Maxxis set out to create a 29" urban assault tire, the Grifter was the natural choice. The 29" Grifter is available in 2.00" and 2.50" widths for riders looking for a light, durable and fast tire.
